The authorised fund manager of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the Fund is to provide quarterly income whilst also providing capital growth through market cycles (7 years).

The Fund will aim to meet its objective by primarily (at least 70%) investing in real estate investment trusts (REITs) and other listed securities that own, operate or finance tangible assets that provide the infrastructure which enables modern technology to operate successfully. This is likely to include, but not exclusively, assets such as communication towers, data centres, distribution centres that enable the fulfilment of e-commerce, fibre optic networks, smart grids, battery storage, and warehouses. The Fund may also invest (up to 10%) in listed vehicles which are being specifically established to invest in such infrastructure.

The sector is currently weighted in favour of REITs, however, as the digital infrastructure sector grows the ACD may identify additional opportunities in the sector, in other security types, such as equities, real estate operating companies (REOCs) and bonds.

The Fund has a global investment remit and will invest in companies listed in member nations of the Organisation for Economic Cooperation and Development plus Singapore and Taiwan.

The Fund may also invest (up to 30%) in collective investment schemes, money market instruments, deposits, cash and near cash.

There is no particular emphasis on any geographical area.

The Fund is actively managed.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of one or more underlying assets) may be used for efficient portfolio management and hedging purposes.

You can buy and sell shares in the Fund on any business day.

Any income from the Fund will be added to the value of your investment (i.e. dividend income will be included in the value of your shares).

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

← Lower Risk			Higher Risk →			
Typically Lower Rewards			Typically Higher Rewards			
1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in "Practical Information" overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing charges	0.70%*

Charges taken from the fund under certain specific conditions	
Performance fee	N/A

The ongoing charges figure is based on expenses and the net asset value as at 06 January 2025. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution adjustment on entry to or exit from the fund.

For more information about charges, please see Appendix 1 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

**The Investment Manager of the Fund has undertaken to absorb any costs that would otherwise cause the Class I shares of the Fund to have ongoing charges (excluding underlying collective investment undertaking holding charges) in excess of 0.70%. In the absence of such commitment the ongoing charges figure would be 0.82%.*

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart opposite is net of tax and charges but excludes the entry and exit charges that may be paid on the purchase and sale of an investment.

The share class and Fund both launched on 31 May 2021.

Performance is calculated in Pound Sterling.
