

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Johnston Cautious Portfolio (the "Fund")

a sub-fund of VT Johnston Financial Funds ICVC (the "Company")

Class A Accumulation Shares (ISIN: GB00BM952705)

Class A Income Shares (ISIN: GB00BM952812)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the Fund is to achieve capital growth over the medium to long term (5 years and over) with the potential for also providing income.

The Fund will typically invest around 40% (although this may fluctuate between 35% and 45% due to market movements) seek to achieve its objective by actively selecting and investing around 40% of its portfolio in a range of actively-managed OEICs, Unit Trusts, and other collective investment vehicles (including exchange-traded funds, and which may include funds managed and/or operated by the ACD or Investment Adviser) providing exposure to a globally-diversified range of equities. The funds held in this part of the Fund's portfolio will be managed by a carefully selected range of active fund managers.

The remainder of the Fund will be invested in collective investment vehicles (which will typically be passively managed) that provide exposure to fixed-income instruments (and potentially alternatives) or, where not invested in the above, in a combination of cash, money-market instruments, fixed-income instruments or equities. This part of the Fund will be actively managed with the underlying exposure to different instruments and vehicles varying based on the ACD's assessment of wider market conditions and which investments will best assist in the objective of the Fund being achieved.

As the Fund has global exposure some investments may be held in non-sterling currencies.

The Fund is actively managed.

The Fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be used for efficient portfolio management purposes. It is expected that use of derivatives will be limited.

You can buy and sell shares in the Fund on any business day.

If you hold accumulation shares, income from the Fund will be added to the value of your investment (i.e. dividend income will be included in the value of your shares).

If you hold income shares, any income from the Fund will be distributed four times a year.

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because monthly historical performance data indicates that average rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- Derivatives risk: use of derivatives may result in gains or losses that are greater than the original amount invested

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing Charges	0.68%

Charges taken from the fund under specific conditions	
Performance Fee	N/A

The ongoing charges figure is based on expenses and the estimated net asset value as at 31 December 2024. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 3.6 & 7 of the prospectus, together with Appendix 1 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart shown opposite is inclusive of tax and charges.

The share class and Fund both launched in August 2020.

On 13 January 2023 the Fund changed its name from VT Johnston Multi-Asset Cautious Fund to VT Johnston Cautious Portfolio. Past performance prior to 13 January 2023 was achieved under the Fund's former name.

Performance is calculated in Pound Sterling.
