

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## VT PEF Global Multi-asset Fund (the "Fund") a sub-fund of VT Plain English Finance Funds ICVC (the "Company") Class A – Accumulation Shares (ISIN: GB00BDZZSM84)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

### Objectives and Investment Policy

The investment objective of the Fund is to provide capital growth over the medium to long term.

The Fund will aim to meet its objectives by investing primarily by using Exchange Traded Funds to provide indirect exposure to a broad selection of asset classes which may include equities, fixed income, commodities, real estate and infrastructure in different jurisdictions throughout the world.

The Fund may also invest directly in transferable securities, collective investment schemes, money market instruments, deposits, cash and near cash.

There will be no particular emphasis on any industrial, geographic or economic sector.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be used for efficient portfolio management purposes.

The Fund has the discretion to invest in a range of investments as described above.

You can buy and sell shares in the Fund on any business day.

Any income from the Fund will be reinvested into the Fund.

For full investment objectives and policy details please refer to the prospectus.

### Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

← Lower risk			Higher risk →			
Typically lower rewards			Typically higher rewards			
1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because monthly historical performance data indicates that it has experienced average rises and falls in market prices historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments. The Fund aims to mitigate this risk by investing in all major asset classes in many geographic regions and owning assets which are often negatively correlated.
- **Concentration Risk:** The Fund seeks to minimise concentration risk by owning a wide selection of Exchange Traded Funds which themselves own many hundreds of underlying assets.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary. The Fund invests nearly exclusively in large, liquid ETFs so liquidity risk should be significantly lower than in a more conventional actively managed fund investing in single assets.
- **Derivatives Risk:** use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

## Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%
Exit charge	0%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing charges	1.21%

Charges taken from the fund under certain specific conditions	
Performance fee	Nil

The ongoing charges figure is based on expenses and the net asset value as at 31 December 2024. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 3.6 & 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

## Past Performance

### Past performance is not a guide to future performance.

The past performance in the chart shown opposite is inclusive of tax and charges but excludes the entry charge that may be paid on the purchase of an investment.

The share class and Fund both launched in September 2017.

Performance is calculated in Pounds Sterling.

## Practical Information

The depositary for the Fund is NatWest Trustee and Depositary Services Limited.

You can obtain further information about the Fund, copies of the prospectus, annual reports and accounts and half-yearly reports and accounts in English, free of charge, from Valu-Trac Investment Management Limited, Orton, Moray, IV32 7QE. They are also available electronically at [www.valu-trac.com](http://www.valu-trac.com).
